Re: Letter of Recommendation – Daphne Thomson

To Whom It May Concern,

On behalf of the District of Tumbler Ridge, I am pleased to provide this letter of recommendation for Daphne Thomson in recognition of her excellent interim support to our Corporate Department.

Daphne provided strategic and operational assistance during an important period of digital transformation. Her work in creating structured systems and modernizing internal processes has had a meaningful and lasting impact on our efficiency and administrative capacity.

One of her key contributions was helping revise and implement digital tools to support our Privacy Management Program. Her approach was organized, thorough, and practical.

Daphne also played a major role in preparing the organization for the general local government election cycle. She provided suggestions for amendments to election bylaws, updated candidate information and nomination packages, and ensured we were procedurally ready in alignment with provincial requirements.

In addition, Daphne implemented custom AI agents to streamline workflows and improve internal knowledge management. These tools aim to reduce manual work, improve consistency, and create efficiencies across departments. She ensures all AI usage during this process are responsible, transparent, and aligned with governance and privacy obligations.

Beyond her technical expertise, Daphne was a strong and trusted collaborator. She built positive working relationships with staff and leadership, demonstrated sound judgment, and consistently acted with integrity and discretion. She has a rare ability to connect governance, technology, compliance, and day-to-day operations in a practical and strategic way.

Daphne's contribution has positioned the District of Tumbler Ridge for continued modernization and operational resilience. Any organization would benefit from her expertise in digital transformation, privacy programs, election planning, and governance systems.

We recommend Daphne without reservation.

Sincerely,

Adriana Alves
