Attention: Daphne,

RE: AI and DIGITIAL TRANSFORMATIONAL TRAINING WORKSHOP

It was indeed a pleasure to finally host you with Gitlaxt'aamiks Village Government staff training around policy development, writing, budgeting automation with copilot integration, word, PowerPoint and outlook.

Your workshop offered us the opportunity to learn about various applications such as bylaw drafting, report writing, Emergency Management, critical thinking / ethical use and social media all to be able to better serve our residents.

We appreciate you sharing your expertise especially AI in Local Government and within our workplace, your energy and enthusiasm was very inviting and fun which made for a very nice learning environment.

Your session proved there is so much work that can be done with AI especially knowing how to write our policies in various areas especially with the work around our branding.

I trust this is satisfactory.

Yours truly,

GITLAXT'AAMIKS VILLAGE GOVERNMENT

Darlene Morgan
Chief Administrative Officer
